

# Manage your entire retail business with LS Central

Still using many software solutions to manage the various processes in your retail business?

**It's time to upgrade to LS Central!**

## Run your retail operations efficiently

**Get all the functionality you need** to run a top-notch retail enterprise – sales, inventory, analytics, reporting, loyalty, and more – in one, powerful system.

## Add the functionality you need

Use the entire scope of the LS Central platform, or start with the basic retail functionality and **add more modules as you go**. You decide, based on your business goals.

## Reduce manual work and save time

**Get a single point of truth** about your inventory, operations and customers, and access data, reports, analytics and sales from anywhere. No more wasted hours looking for information across different databases!

## Manage multiple industries

Manage every aspect of your business, from retail to food, events, services and hospitality, with one solution and **deeply specialized industry functionality**.

# A unified, modular solution designed for retail

Manage Point of Sale (POS), store operations, stock, replenishment, customer loyalty, and more in **one powerful platform**.

LS Central expands Microsoft Dynamics 365 Business Central, Microsoft's #1 ERP solution globally, with **advanced retail functionalities**.
